

## Network Support

**IT Network Consulting Services Overview** Your network is more central to your business processes than ever before. You don't need to be reminded that network outages and security lapses can be devastating. You need a technology partner that can help your business get the most out of its network and keep it up and running 24 x 7 x 365. Vitilit is uniquely suited to help your business accomplish its goals. Let us handle the technology so that you can focus on what you do best, your business.

**IT and Network Support - Our Expertise** The Vitilit Network Support team is composed of experienced and certified engineers and technicians with areas of expertise ranging from LAN/WAN design, to network security, to business process development and technology implementation. Our engineers routinely handle:

- Network Services, Systems Management and Information Security
- Database, Email, Firewall and Application Servers
- Enterprise Tape Storage Strategies and Solutions
- Exchange Enterprise Email System Deployment and Conversions
- Websense Web Filtering and Web Security Installation
- Microsoft Windows 2003 Server with Active Directory
- Wireless Connectivity
- Infrastructure Switching and Routing
- Secure Remote Access Solutions
- WAN Infrastructure
- Intrusion Detection
